LEONARDO LODI

Full-Stack Software Developer

📞 +351 914 137 935   @ leonardolodi09@gmail.com   🔗 github.com/LeonardoSaraceli

🔗 linkedin.com/in/leonardo-saraceli-almeida-lodi/   📍 Porto, Portugal

SUMMARY

Enthusiastic full-stack software developer who pays attention to every detail and enjoys solving problems. I recently graduated from an intensive software development bootcamp, where I gained teamwork experience and developed full-stack applications with JavaScript, React.js, Express.js, PostgreSQL, Prisma, CSS and other libraries.

EXPERIENCE

Software Development Graduate

Boolean UK

📅 02/2024 - 08/2024   📍 Remote

- Completed a full-time 6-month intensive full-stack software development bootcamp with over 1,000 hours of learning and exercises
- Worked on a 4-week team development project with a legacy codebase
- Learned the most modern industry tech taught by experienced professionals of the area
- Developed front-end skills, learning React.js, JavaScript, HTML and CSS. On the back end, also using JavaScript libraries and frameworks, I learned Express.js, PostgreSQL, Prisma ORM and Node.js
- Learned about Git workflow, handling merge conflicts, and managing pull requests
- Undertook Scrum Master role

Commercial Agent

Interpass

📅 05/2023 - 07/2023   📍 Porto, Portugal

- Received inbound customers and presented the product to them - membership to the company's members club, where the customer had access to various discounts and courtesies related to: travel, health insurance, services and products
- I approached 3 to 5 customers per day, welcomed them, demonstrated all the benefits of being a club member and connected the product to the lives of each customer
- Participated in the after-sales process, closing contracts

PROJECTS

Portfolio

🔗 leonardolodi.vercel.app

My personal website that showcases my skills and projects.

- Tech stack: **JavaScript, React.js and CSS**
- Worked on the interface's design on Canva
- Deployed on Vercel

Omniloq

🔗 omniloq-frontend.vercel.app

A password manager which saves every login into the database with its password encrypted.

- Built a full-stack app in 2 weeks as a solo project
- Tech stack: **JavaScript, React.js, Node.js, Express.js, PostgreSQL, Prisma and CSS**
- Developed diagrams, such as: ERD, Component Tree and the interface's design
- Applied Browser Router to navigate UI
- Used JWT for authentication
- Built the encryption and decryption methods with Crypto.js
- Deployed the front end repository on Vercel and the back end on Render

Banking System

🔗 github.com/LeonardoSaraceli/ood-bank-challenge

A bank management that simulates deposits, withdrawals and prints out the bank statement between dates.

- Built a front end app in 2 days to practice OOP
- Tech stack: **JavaScript, React.js, Jasmine and CSS**
- Developed the front end using React and CSS
- Built the system based on OOP methodology using JavaScript
- Practiced TDD and implemented automated tests with Jasmine

EDUCATION

Full-Stack Software Development

Boolean UK

📅 02/2024 - 08/2024   📍 Remote

- Certificate
- Developed front-end skills, learning React.js, JavaScript, HTML and CSS. On the back end, also using JavaScript libraries and frameworks, I learned Express.js, PostgreSQL, Prisma ORM and Node.js

High School Diploma

Colégio Centro de Estudos pH

📅 02/2017 - 12/2019   📍 Campos dos Goytacazes, Rio de Janeiro, Brazil

- Certificate

English Course

Wizard by Pearson

📅 03/2013 - 12/2019   📍 Campos dos Goytacazes, Rio de Janeiro, Brazil

- Completed my studies up to the last book, W12

SKILLS

JavaScript   React.js   PostgreSQL   Node.js   Express.js   HTML   CSS   Prisma ORM   Jasmine   Jest

ADDITIONAL SKILLS

Git   RESTful APIs   TDD   OOP   Authentication   Agile   Authorization   CI/CD   Browser Router
